

SEMILLON

94 2004 Allandale Hunter
Valley Semillon

\$30.00; SCREWCAP; 11.5% ALC/VOL

● The sister wine to this (an '03) won a trophy last year, and the price jumped 50 per cent. Grab hold of this before it does the same thing. Glowing, almost iridescent green-gold; the screwcap has done its job to perfection, allowing the wine to develop just a touch of honey to join the citrus flavours, without a hint of tiredness. Now or in another 10 years.

REGION: Lower Hunter Valley

DRINK: to 2020
